Jeff Affield Estate Auction

MAC tools 21 drawer tool cabinet and others

'85 Chevy Camaro Z28 sport drag racer, no title. Jeff was building this car when he passed, and unfortunately we know little about it. The engine looks completely race ready, fitted for nitros and sitting on the stand, same with the built transmission and narrowed rear end. I would say that he had many many thousands just in the engine and transmission alone, but he's not here to tell us. When it's put together, the car will probably time out in the single digits in the quarter mile for all we know.
