Auctioneer's note: Everett and Mary have long had one of the largest beef operations in the area. They have recently divested themselves of their cattle and much of their Real Estate Holdings, ... it is for this reason that they are allowing their stellar farm equipment and accoutrements be offered up at Auction. All big Equipment is like brand new. Everett had a custom of selling most of his equipment and upgrading with newer and better about every 4 years. At the end of each season the equipment would be brought into his shop in town and meticulously maintained by his team of Professional mechanics and then put away in secure sheds. Everett has had an automobile sales lot in town for over 50 years, his reputation for honesty and fair dealings are known far and wide with many of his customers being third generation clients. He stated, "All that equipment is in great shape, I wouldn't have to sell any of it with a caution." And when Everett says that, people around here know it's the truth.

ABSENTEE BIDDING: Folks, if you'd like to come and look at equipment prior to the Auction, give me a call, We want you to be confident about what you buy. If you can't make it for the sale, send someone as your Representative to bid in your stead and pay for the item on sale day, pick-up can be arranged for later. No phone or internet bids allowed.
